

The following is a list of the most commonly prescribed medications. The levels listed may be subject to change based on strength, quantity, and day supply. Benefit designs may vary with respect to drug coverage, cost, quantity limits, step therapy, day supply and prior authorization. This list is not all-inclusive and does not guarantee coverage.

Drug coverage and pricing is based upon the contracted price at each pharmacy. In order to get the best pricing, we suggest utilizing grocery store chains or independent pharmacies. For coverage or pricing questions, contact True Rx Management Services at 866-921-4047.
