

Ronald S. Leopold, MD, MBA, MPH

Medical Consultant and Physician Advisor

As a highly credentialed and experienced physician executive, Dr. Leopold brings a breadth of knowledge as a consultant and client advocate. He is an industry thought leader in medical costs, employee benefits, and health and productivity. He works with employers using data analytics to help identify trends and identify medical cost solutions.

Dr. Leopold consults and advises benefits advisers and employers on:

- Medical cost reduction and health risk mitigation strategies;
- High cost medical claimant solutions;
- Clinical and population health data analytics;
- Employer health and productivity;
- Global medical and employee benefits; and
- Medical necessity and new medical technologies, including genetic testing and pharmacogenomics.

Dr. Leopold's book on the future of employee benefits, *The Benefits Edge: Honing the Competitive Value of Employee Benefits*, has been described as a blueprint for benefits in the decade of healthcare reform. He also is the author of *A Year in the Life of a Million American Workers*, an almanac of absence data, and a frequent contributor to industry journals.

The former National Medical Director for MetLife, he also served as the Chief Medical Officer for Lockton Benefit Group and the National Practice Leader for Health Outcomes at Willis Towers Watson. Dr. Leopold received his medical degree from Thomas Jefferson University, his master's in public health (MPH) from Boston University, and his MBA in Health Care from The Wharton School.
