

# ARE YOU TURNING 65?

WARNER FINANCIAL GROUP

Celebrating 65 years is a BIG deal! It's a wonderful milestone and a great segue to your Golden Years. It's also the time when you need to enroll in Medicare. Medicare can be a bit confusing and a little overwhelming, but I'm here to help you navigate the Medicare waters. I'll answer any questions you may have, guide you with your enrollment process, should you need help, and I'll assist you with additional, supplemental coverage.

We will explore Medicare Advantage and Medicare Supplement plans and review the pros and cons of each. We'll also discuss Prescription Drug Plans and additional coverage such as Dental, Vision & Hearing plans. I'll research the best plans based on your personal situation, and will prepare personalized quotes and recommendations just for you. I'll then advise you about which plans make sense and I'll help you enroll to make sure you get the proper coverage for your specific needs.

Reach out to me today and let's get started.
