

STITH & ASSOCIATES HEALTH INSURANCE AGENCY, INC.

November 15, 2023

Monthly Newsletter

NOVEMBER IS ALZHEIMER'S AWARENESS MONTH

Alzheimer's is a progressive medical condition. It is important to learn about the disease along with some simple steps that can help delay the potential onset or help facilitate an early diagnosis. While the terms are often used interchangeably, "dementia" is an umbrella term for many types of diseases associated with cognitive decline and memory loss, whereas "Alzheimer's" references a specific diagnosis. Alzheimer's is referred to as a progressive disease, as the dementia symptoms generally worsen gradually over time.

NOTE: To ALL Non-Medicare beneficiaries, Open Enrollment starts November 1. If you want January 1 to be your effective date, you must enroll before December 15.
