### Healthy Vision Awareness Month

Vision loss can have a major impact on every part of life. Having a visual impairment can create challenges in performing everyday tasks, and the stigma around losing vision can be isolating – causing feelings of fear, anxiety, or grief. But you're not alone.

That's why Healthy Vision Month 2024 is focused on helping people with a visual impairment know how to access vision rehabilitation services, mental health support, and social connection.

Under our individual health solutions, we can provide you with a wide array of products and services from a variety of respected insurance and benefits providers.

### Annual Community Day Join Us August 3 10am - 4pm
